Computing Productivity

Productivity in the Service
Sector

Factors That Affect Productivity

Improving Productivity

Forecasting

Chapter 3

Chapter 3 Contents

Elements of a Good Forecast

Steps in the Forecasting Process

Forecast Accuracy

Qualitative Forecasts

Executive Opinions

Salesforce Opinions

Forecasts Based on Time-Series Data

Naive Methods

Techniques for Averaging

Techniques for Trend

Techniques for Seasonality

Strategic Capacity Planning for Products and Services

Chapter 4

Chapter 4 Contents

Defining and Measuring Capacity

Determinants of Effective Capacity

Forecasting Capacity Requirements

Calculating Processing Requirements

Do It In-House or Outsource It?

Evaluating Alternatives

Financial Analysis

Decision Theory

Waiting-Line Analysis

Process Selection and Facility Layout

Chapter 5

Chapter 5 Contents

Process Selection

Product and Service Profiling

Lean Process Design

Process Strategy

Strategic Resource Organization:

Facilities Layout

Designing Product Layouts: Line
Balancing

Designing Process Layouts

Aggregate Planning and Master Scheduling

Chapter 6

Chapter 6 Contents

Intermediate Planning in Perspective

The Concept of Aggregation

Dealing with Variations

Aggregate Planning and the Supply
Chain

Demand and Supply Options

Basic Strategies for Meeting Uneven
Demand

Techniques for Aggregate Planning

Disaggregating the Aggregate Plan

Master Scheduling

Time Fences

MRP and ERP

Chapter 7

Chapter 7 Contents

The Master Schedule

The Bill of Materials

The Inventory Records

MRP Processing

Updating the System

MRP Outputs

ERP

Inventory Management

Chapter 8

Chapter 7 Contents

The Nature and Importance of Inventories

Functions of Inventory

Objectives of Inventory Control

Requirements for Effective Inventory Management

Inventory Counting Systems

Classification System

Inventory Ordering Policies

How Much to Order: Economic Order Quantity Models

Basic Economic Order Quantity (EOQ) Model

Economic Production Quantity (EPQ)

Shortages and Service Levels
